SUMMARY

An Electrical Engineering student from Brawijaya University (Class of 2025) focusing on the integration of embedded systems, artificial intelligence, and cybersecurity. He has a track record in system architecture design, hardware experimentation, and technology exploration through an engineering mindset and problem-solving approach.

WORK & ORGANIZATION EXPERIENCE

FILKOM Research Group

Apr 2026 - present

- Position: Research Member AIoT
- Implementing and fine-tuning the YOLOv8-seg deep learning model for predicting and segmenting the size of catfish (*Clarias sp.*) seeds.

Society of Robotics & AI (SORA)

May 2026 - present

- Position: Member of the Nirantara Division (Racing Plane)
- Involved in the SORA UKM ecosystem which hosts various robotics workshops and innovations within the Brawijaya University environment.

EECCIS

2026

- Position: Event Division Committee
- Coordinate across divisions to ensure smooth technical and logistical processes during electrical and computer engineering scientific events.

Kaori's Cafe

Jul 2024 - jan 2025

- Position: Barista and Operational Staff
 - Managed daily operations and team coordination
 - Train communication skills, independent problem solving, and teamwork in daily business operations.
-

EDUCATION

Senior High School Science Major

Jul 2020 - Jul 2023

SMA IT ALIA ISLAMIC SCHOOL

- Active member of Sispala (Student Nature Enthusiast Club), developing strong teamwork, adaptability, and problem-solving skills through various outdoor expeditions

Bachelor of Electrical Engineering

Aug 2025 - present

Universitas Brawijaya

- Relevant coursework in Circuit Theory, Basic Electronics, Embedded Systems, and AI Fundamentals

PROJECTS

- **Model Rocket Avionics & Data Logging**, Explored ESP32-based avionics systems for altitude data logging and mechanical troubleshooting.
 - **Implemented and fine-tuned YOLOv8-seg model on Orange Pi 4 Pro** for catfish seed size prediction
-

ADDITIONAL INFORMATION

- **Technical Skills:** C, Python, YOLOv8, Arch Linux.
- **Languages:** Indonesian (Native), English (Professional Working Proficiency)
- **Certifications:** ID-Networkers Cyber Security Online Bootcamp, IBM Granite Code Optimization, Pijak IBM (Running)
